

Kingdom of the Netherlands

Technical Session on
Climate Resilient WASH Service and the Role of Private Sector towards it
at the
10th International Conference on Water and Flood Management (ICWFM) 2025

The Embassy of The Kingdom of Netherlands (EKN) in Bangladesh is pleased to invite you to a technical session at the **10th International Conference on Water and Flood Management (ICWFM) 2025**, titled **“Climate Resilient WASH Service and the Role of Private Sector towards it”**. The session will take place on **February 23, 2025, from 2:30 PM to 5:00 PM** at the **Hakaluki Conference Room, CIRDAP Auditorium, Chameli House, 17 Topkhana Road, Dhaka 1000**.

Climate change threatens WASH services in multiple ways. WASH services in Bangladesh are particularly vulnerable to these threats, including water scarcity, infrastructure damage, and health risks resulting from inadequate water supply and poor sanitation. The private sector can play a crucial role in enhancing climate resilience in WASH services. This side event aims to explore the opportunities, challenges, and action points for the private sector to effectively contribute to achieving climate-resilient WASH services.

This session will bring together experts, practitioners, policymakers, and researchers to sustainable business models, financing mechanisms, and innovative technologies that enhance climate resilience in the WASH sector. Your presence at the event is highly valuable and enriches the discussion towards climate resilient WASH solution.

Looking Forward to meeting you at the event.

Kind Regards,
Embassy of the Kingdom of the Netherlands
